

Joao Belleboni Marques

Experience:

Since 2001 working with elite football. Over the past 6 years, has led the Excellence in Football Project at Aspetar, Othopaedic and Sports Medicine Hospital and at Aspire Academy, in Qatar. Currently is leading the Performance and Health Department at Club Athletico Paranaense (CAP), in Brazil.

Education:

Master degree in Science and Strength and Conditioning at St Mary's University, Twickenham, London, England. Current PhD student at University of Sao Paulo (USP), Brazil, at the rehabilitation and functional performance program.

Current research area:

Examining biomechanical responses using wearable sensors during change of direction tasks following anterior cruciate ligament reconstruction in elite football players.
